

MINI-WORKSHOP LONG-/ POST-COVID

**SEPTEMBER 1, 2025
TWINCORE, SEMINAR ROOM
GROUND FLOOR**

This focused event, hosted by the Centre for Individualised Infection Medicine (CiiM) with its directors Yang Li and Markus Cornberg, will bring together leading researchers and clinicians to deepen existing collaborations and catalyze new partnerships in the study of long-term sequelae following SARS-CoV-2 infection.

WORKSHOP OBJECTIVE

To map ongoing local and supraregional activities, share emerging data, and initiate collaborative research proposals aimed at elucidating the immunological and clinical determinants of long-term post-viral complications.

FEATURED SPEAKER

We are honoured to welcome **Prof. Jie Sun** as our guest speaker. He will deliver a keynote on *Immune Determinants of Long-Term Consequences after Viral Infections*

CALL FOR ABSTRACTS, DEADLINE 10 AUGUST 2025

We invite submission of abstracts (max 300 words) for short talks and project pitches that showcase:

- * Ongoing or completed cohort studies
- * Novel mechanistic investigations
- * Innovative therapeutic or diagnostic approaches
- * Prospective collaborative project ideas

REGISTRATION, DEADLINE 20 AUGUST 2025

Secure your place by registering here.

We look forward to your contributions and to what promises to be an engaging and productive afternoon of scientific exchange. Should you have any questions, please do not hesitate to contact us.
